BUILDING - SANITARY - ENVIRONMENT

## Tradition and modernity.

Belriv Tradi range is available in «cork oak» finish. This solution has the warm and natural aspect of the wood combined with the strenghts of synthetic materials.

So integration to your house architecture can fit with aesthetism, easy implementation and durability.

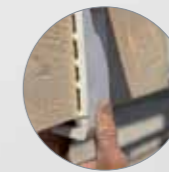

### ADVANTAGES

- Nail-on system in cellular PVC.
- No need for maintenance, paint or protective coating.
- Soffit Thicknesses : 7mm.
- Excellent UV resistance for long-lasting colours.
- Frost and bad weather resistance.
- 10-year warranty.

Special "teardrop" design

Back embossement to ventilate wood counter-fascia

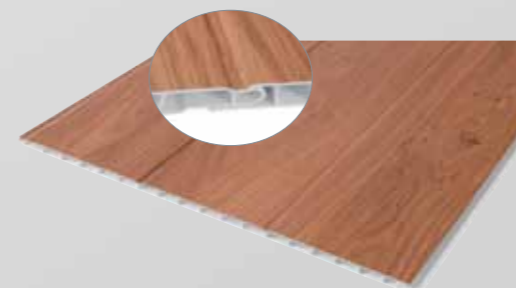

Cork oak finish

### SOFFITS

Belriv Tradi fascia in cork oak finish have a 7 mm thickness. Fascia have to be nailed on a wood board (existing fascia or new board). The wide range of heights allows to adapt to every type of eave.

#### Characteristics :

- Fascia thicknesses 7 mm.
- Overlap 35 mm.
- Fascia heights available : 17,5 cm, 20 cm, 22,5 cm.
- PVC fascias are high density to ensure extreme rigidity for secure fastening to guttering.

### CELLULAR SOFFIT

Modern design soffit with clip implementation. The large 10 mm strip is performed in order to fix the soffit in case of large eave.

Length : 4 m

Width : 0,33 m

### THE NICOLL EXTRA

Cork oak finish finish by Nicoll guarantees the same aspect and colours between fascia, soffit and accessories (junctions, corners...). Belriv Tradi cork oak finish range allows harmonious eaves and an excellent colours fastness over time.
