

LEAF TRAP

An innovative new leaf trap from Nicoll for easy cleaning gutters.

- Simple design fully integrates with downpipe.
- Stops debris (twigs, leaves) at eye-level before it can block inaccessible underground pipes.
- Easy to use: just twist the lower section of the leaf trap to open.

BUILDING LEAF TRAP

New leaf trap from Nicoll:
The solution for easier gutter maintenance

| Product | White | Sand | Brown | Slate | Terracota | Black | Copper |
|------------------|---------|---------|---------|---------|-----------|---------|---------|
| Leaf Trap - ø 80 | PAF801B | PAF801S | PAF801M | PAF801A | PAF801R | PAF801N | PAF801C |

DESCRIPTION AND USE

- The Nicoll leaf trap filters out leaves and other debris in the downpipe for easy clearing. Simple to twist open or closed it is hardly noticeable as it blends with the gutter downpipe.

ADVANTAGES

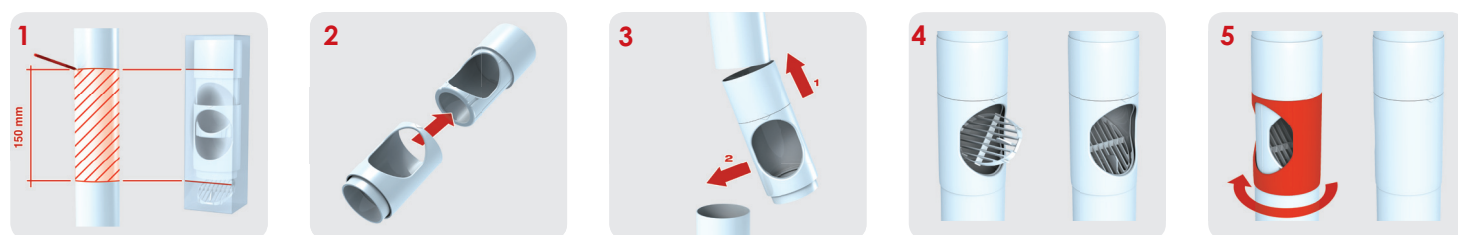

- Easy to use: just twist the lower section of the leaf trap to open.
- Screen can be removed for easy cleaning.
- Can be adapted to fit your existing guttering (PVC or zinc piping).
- Quick and easy to install (no solvent cement weld necessary).
- Leaf trap available in 80 mm diameter.
- 100% recyclable materials.
- 10-year guarantee.

INSTALLATION

- 1 Cut out a section of the downpipe to the length shown on the template on the back of the packaging.
- 2 Fit the two interlocking halves of the leaf trap together.
- 3 Fully insert the top part of the leaf trap into the downpipe above by pushing it a little to the side, then realign and insert into downpipe below.
- 4 Place leaf screen inside trap.
- 5 The leaf trap is now ready for use. It can be opened or closed by simply twisting the lower section.
